DKI Jakarta

I am a fresh graduate in Informatics Engineering from Universitas Negeri Semarang with strong analytical, problem-solving, and communication skills. I am adaptable and capable of working effectively both independently and within a collaborative team environment. My expertise covers data analysis, information systems, and technology-based solutions, supported by proficiency in tools such as SQL, Microsoft Excel, Looker Studio, and Power BI. Strengthened by a solid academic foundation and hands-on experience from various projects and internships, I am eager to begin my professional career by applying my skills to deliver innovative, data-driven solutions, support organizational growth, and continuously enhance my professional capabilities. My portfolio and project work can be accessed at: dylan--portfolio.vercel.app

Jenjang Pendidikan
